

# Healthy Volunteers Needed for Insight and Memory Research Study

We are looking for healthy adults for a study that looks at brain functioning. You will do cognitive testing- a series of memory games and other tests to determine your cognitive capacity and level of insight.

## You May Qualify If You

- Are over 50 years old
- Have a reliable study partner- someone who knows you well and who you're comfortable with
- Do not have history of strokes or memory disorders
- Do not have uncontrolled medical/ psychiatric conditions

Scheduling will accommodate your normal work hours. Participants will be compensated.

## Participation Involves

- 1 visit of testing and questionnaires
- The visit is around 2.5 hours
- Study partner will answer a few questionnaires about how they believe you think and feel

## Locations

Conventus Building  
1001 Main St., Buffalo, NY 14203
